Audit Findings

Audit Narrative

This audit was conducted October 17-19, 2018 by William Peck, Certified PREA Auditor. No significant issues were found during this audit. There have been zero incidents or allegations and every resident interviewed felt they were safe and felt every other resident was safe. It is noted that this is the same result encountered at the initial PREA audit 3 years ago, meaning there have been zero incidents in the past 6 years of auditing coverage. In actual fact, it appears that the last sexually-related incident was about 13 years ago and resulted in criminal charges and subsequent confinement.

City of Faith was founded as an opportunity for outreach for prisoners and operates as a private not-for-profit organization. Kathy Biedenbarn, founder, opened the first City of Faith halfway house in 1983. Since that start, she has expanded the program to include two federal and three state residence houses in the City of Faith neighborhood.

The mission of the City of Faith is to work with the residents to help them become responsible family members, dependable employees, and productive citizens. The program is clearly faith-based in approach and staff all demonstrate that same approach. Underlying every rule and process is a leadership-driven commitment to treating all residents with respect and requiring all residents to treat staff with respect.

The facility houses no sex offenders, no youthful offenders and has not received a non-English speaker for recently. It houses Federal Bureau of Prisons females in one house.

All medical services are provided in the community, none at the facility. All allegations of abuse would be initially reviewed by senior staff for credibility and then referred to the City of Monroe Police Department per their mutual agreement, but there have been none. And, it should be noted that residents have full access to any and all reporting agencies due to their community-access status.

The facility uses no contractors or volunteers; some residents do attend, in their free time, a neighborhood church that has a voluntary release preparation program complementary to the City of Faith program.

Operations are structured such that cross-gender searches, including pat downs, never occur, nor do cross gender entry into bathroom and shower areas. Cross gender entry into bedrooms is always announced and residents and staff both indicate that adequate time is allowed for residents to clothe themselves before actual staff entry. The rule is to allow at least 5 seconds after announcement before entry but observation during the tour is that 5 seconds would be the minimum. The only Coed house, for federal residents, is routinely staffed with both a male and female security person. Other houses, all male, have same-gender supervision generally but may have both genders on duty together. Female staff do not enter male bathrooms or shower areas; if residents are in these areas during count, female staff wait for males to exit the bathroom or have a male staff enter the area for count. Counts occur at the same times daily, so residents acknowledged in the interviews they can decide for themselves whether they wish to be in the bath/shower or not.

Staff training is excellent, thorough and well-documented and interviews affirmed that all required topics are covered annually and in initial training as well. Inasmuch as the small number of mid-level and senior staff routinely fill multiple roles, training usually overlaps several areas for each person.

There has not been an incident or allegation of sexual abuse or harassment for well over 10 years. All staff and residents are trained in appropriate responses, however, and all verified and demonstrated their knowledge of the proper steps through the interviews. Residents can contact the local victim services agency at the provided telephone numbers at any time, but the victim services agency is actually located in the same block as most of the houses.

Aside from scheduled counts and regular locker searches, residents are lightly regulated and have extensive access to the outside community. Every resident was cognizant of several avenues to file a complaint although none had ever had any issues, and every resident firmly believed that a complaint to any staff member would elicit immediate response. Every resident stated confidently that the staff was committed to resident safety and would tolerate no inappropriate behavior. Problems are reduced also because the goal of every resident was to maintain their pending release date, work, earn funds and return home.

Tour

The tour was made the morning of October 18, led by Troy Adams, ACA Coordinator, and visited all spaces and buildings. Not present for the entire tour, but encountered in their respective areas, were Ollie O'Neal, Facility Director for the Louisiana Department of Corrections spaces and Lisa Harper, Facility Director for the Federal BOP resident spaces.

The tour revealed a common and consistent approach to operations and physical plant furnishing and design. All sleeping areas contained various numbers of bunk beds and all toilet areas were largely private and showers were curtained. Cameras are well-placed in all common areas with none in areas where privacy would be expected.

All five houses and the administrative offices are on grounds that are well cared for with neatly trimmed lawns and hedges. The properties are well maintained with pleasing painting schemes.

Interviews (36 Staff, 15 Residents)

Specialized Staff (Some have multiple roles due to small program size):

- 1 Agency Deputy Executive Director
 - 1 PREA Coordinator
 - 4 Incident Review Team Members
 - 1 HR Director
 - 1 Contract Administrator
 - 1 Retaliation Monitor
 - 1 Investigative Staff (Preliminary Oversight prior to referral to Monroe LA Police Department)
 - 2 Facility Directors
 - 1 Security Chief
 - 2 Case Manager
 - 4 Intake Staff
 - 2 Staff who Perform Screening for Risk of Victimization
 - 3 First responders, both security and non-security staff, including Chief of Security
- 12 Random Staff

- 2 Female Residents (Only 2 females were assigned here during the audit)
- 1 Older Resident
- 12 Random Residents

Targeted resident populations are not sent to this community program by the DOC or BOP, and there were therefore no residents identified in those categories.

Facility Characteristics

Corporate headquarters and Administrative Offices, located in Monroe, LA at 1511 Jackson Street, maintain the offices for the: executive director, deputy director, human resource staff and fiscal personnel.

City of Faith contracts with the Louisiana Department of Public Safety and Corrections and the Federal Bureau of Prisons to provide residential services for inmates serving the final phases of their sentences, accomplished at 5 houses in Monroe, LA. The program and chains of command are clearly segmented between residents from the FBOP and residents from the LA DOC since the requirements of the 2 Agencies differ in numerous respects.

Inmates must be adults within 48 months of their release to be considered for the program. In general, convictions for violent offenses or drug distribution crimes are restricted to no more than six months in the program. Sexually related offenses are not considered for halfway house placement and the program does not receive disabled or limited English proficient residents. There were no residents reported, self-identified, or perceived as LGBTI.

House#/Address/ Capacity

2. House 2 – 1905 Jackson Street, Monroe, LA/ 16
3. House 3 – 1408 Jackson Street, Monroe, LA/ 30 *(Federal inmates, Coed)

Total Resident Capacity of all buildings = 147

House One is a well-maintained two-story wooden structure that was the first City of Faith structure to open in 1983 as a Federal Community Corrections Center. The facility has been completely renovated and also houses the centralized food service operation, as well as job placement functions.

The first floor consists of a security office which is staffed with two security staff on each of the three shifts. The floor also contains an office for the Employment Placement Specialist and an office for the case managers who service the residents. The kitchen in House One currently prepares meals for all City of Faith residents. Residents in Houses Two & Four walk across the street to receive their meals in the dining room. Residents in Houses three and five have their meals transported to them.

The second floor of House One has four bedrooms with a total of 34 bunk beds and lockers. Residents have access to 3 pay phones in the hallway. Toilet/shower facilities are available on the floor for residents use.

House Two is directly across the street from House One at 1905 Jackson Street. This structure is a one story, white, well maintained wooden structure. Like the other homes, it has dormitory style rooms for 16 residents.

House Three, a coed facility located at 1408 Jackson Street, is a two-story wooden structure that has a capacity of 30 residents. The first floor consists of a security office and a dining area. The first floor also contains two bedrooms for females. The second floor contains two bedrooms also. Both floors have private bathroom and shower facilities. Knock and announce is required for any cross-gender access and was practiced during the tour. All interviews indicated this as a standard requirement and a routinely practiced procedure. Additionally, when needed, cross-gender staff delay entry a few moments if residents need time to put clothes on.

House Four, a former neighborhood bar, is the largest of the facilities and is the initial housing unit for most new residents assigned to City of Faith. This facility is a metal building with an open barracks style dorm with a total capacity of 48 residents. Beds in this house are triple bunked with lockers, and a small day room. The security officer is stationed directly in the middle of this single large dorm room. The facility also contains a separate shower area with toilets and sinks. This is the only living area with camera surveillance and residents are therefore required to routinely dress/undress in the shower area.

House Five, at 1115 Jackson Street, provides a quiet atmosphere for the residents who reside there. The facility includes a handicapped accessible room and the house is also ADA accessible. Handicap parking is available in the parking lot. Older residents are normally housed here and House 5 is the preferred house for most residents due to size and quietness. The first floor consists of a security office, staffed on all 3 shifts, and it contains a small dining area for the delivered food that is prepared at House One. The second floor contains three bedrooms with showers, toilets, and sinks for residents.

This faith-based program takes its mission to heart and embeds resident safety and mutual resident-staff respect into all facets of its operations. The PREA Coordinator is identified and meets criteria. There is one PREA coordinator for the 5 halfway houses but due to the size of the population, one is very effective.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

There is a policy in place and there are facility layouts reviewed, however there are numerous areas not camera-covered because of the community nature of the program. Cameras cover all community and common areas. It appears that the staffing plan is followed and there is documentation in the file that there was a staffing plan review January 17, 2018 that was based on the original comprehensive plan of June 22, 2014 and there is currently no need for revision. There is a Supervisor on all shifts and both the Director and Security Chief are on call, all of whom make logged, unannounced rounds.

Standard 115.215: Limits to cross-gender viewing and searches

- Does the facility document all cross-gender pat-down searches of female residents?
 Yes No

115.215 (d)

- Does the facility/agency train security staff in how to conduct searches of transgender and intersex residents in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Policy provides that they do not perform cross gender pat searches except for exigent circumstances. None have been done in recent years through 2018. There is an unusual occurrence report to use if needed. Although program policy allows for the possibility of cross gender pat down searches of males (not females), all staff and residents interviewed confirmed that no cross gender pat down searches are ever done in practice. On the rare occasion a female staff needs to search a resident, a wand is used.

The policy in place also states that no one will be searched to determine their genital status. The facility does not do cavity searches and those would be done at a medical facility if needed. The program utilizes a local hospital, University Hospital, as well as the hospital at Louisiana State University.

There is a policy in place for strip searches for both genders, as well as detailed training. Strip searches are authorized in policy but have not been performed in recent staff memory. The facility director must authorize any strip search which must be performed by two same-sex staff members in private.

There is no cross-gender viewing of residents in toilet or shower areas, and there is no cross-gender access to dormitories without announcements and waiting enough time for residents to cover themselves. Policy in place is to allow at least 5 seconds and it was obvious in the tour and interviews that longer times are routine.

There are training rosters reflecting appropriate training.

Facility upgrades do not occur as often as maintenance improvements but policy and practice is in line with the standard. All mid-level and executive interviews indicated a sensitivity to camera placement, life cycle maintenance issues and ensuring that any changes either enhance security or do not weaken it.

- Does Not Meet Standard** (*Requires Corrective Action*)

As one would expect in a community residential operation, staffing numbers do not allow for recurrent or routinely scheduled initial training in groups, so all newly-hired staff are trained individually; all receive the required training, adequately annotated in their files, and all are trained by the program subject matter experts in those areas and especially by the supervisor in the area for which they are hired. Screening is completed as required and no incidents have been reported; however, as a general rule older, and presumably more vulnerable, residents are housed in the smallest and quietest house to increase their comfort and feeling of security. Staff does a good job in determining where to house new residents after their initial arrival and assessment period, and they do consider history, behavior, social skills and length of time remaining.
