53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	23	
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	 ✓ Age ✓ Race ☐ Ethnicity (e.g., Hispanic, Non-Hispanic) ☐ Length of time in the facility ✓ Housing assignment ✓ Gender ☐ Other ☐ None 	
55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	I randomly selected residents from each housing unit making sure to get an adequate sample of both genders. Once I randomly selected the residents I reviewed my selection and compared to the roster to ensure an appropriate sample.	
56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	• Yes • No	
57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	The resident population was very small with a large majority of the residents working or unavailable. I was given the opportunity to speak with many residents prior to their departure for work and upon the return from their work assignments.	
Targeted Inmate/Resident/Detainee Interviews		
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	3	
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".		
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0	

a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:	Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees. The inmates/residents/detainees in this targeted category declined to be interviewed.
b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).	The PREA coordinator provided a complete list of residents and was questioned regarding the status of each resident. Case Managers were also consulted regarding any residents that may be categorized as a targeted interview. All information provided by Coordinator and Case Manager was verified through the facility Director. The BOP conducts a thorough screening to ensure that COF does not receive residents that would required special accommodations for a physical or mental disability. In addition, inquiries were made through the interview process with both staff and residents and the information provided by PREA Coordinator was verified.

b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).	The facility does not utilize segregated housing. This was verified through policy and physical layout tour.
70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):	Due to the criteria for placement at City of Faith, it is challenging to find a resident that meets the criteria for a targeted interview. The resident population at COF typically does not have any issues relative to mental or physical disability. Most residents are healthy, middle aged adults with no history of sexual victimization, mental or physical impairment.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

I also visited the bathroom/showering area, laundry room, control room and staff offices. All housing unites and administrative office are on grounds that are well cared for with neatly trimmed lawns and hedges. The camera system had an excellent view of all areas of the facility. There were no blind spots noted in any of the areas reviewed.
Documentation Sampling	
Where there is a collection of records to review-such as staff, contractors supervisory rounds logs; risk screening and intake processing records auditors must self-select for review a representative sample of each ty	inmate education records; medical files; and investigative files-
90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct	
an auditor-selected sampling of documentation?	C No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

A random sampling of documentation was reviewed onsite. All requests for additional documentation to review were addressed promptly. It is evident that accurate record keeping is a priority and common practice at COF.

115.211	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Exceeds Standard
	Auditor Discussion
	The facility has a very detailed policy directive for Sexual Abuse. They provide a safe and secure environment for residents. The policy outlines the facilities approach to preventing, detecting and responding to sexual abuse and sexual harassment. The policy includes a response protocol for allegations of abuse and/or harassment. The policy is in practice; interviews with both residents and staff affirmed that this culture is taken very seriously by the entire program and all staff. This faith-based program takes its mission to heart and embeds resident safety and mutual resident-staff respect into all facets of its operations. The PREA Coordinator is identified and meets criteria. There is one PREA coordinator for facility but due to the size of the population, one is very effective. The PREA Coordinator, although has many responsibilities, voiced he has sufficient time and authority to develop, implement and oversee the facility efforts to comply with the PREA standards. The facility upper management staff meets weekly for routine administrative meetings. During this meeting, the PREA Coordinator updates all staff on any upcoming trainings or any recent issues regarding PREA. Based on the detailed policy, awareness of staff and affirmation from residents that the facility has a zero tolerance approach to preventing sexual abuse, the facility exceeds the requirement of this standard.

115.212	Contracting with other entities for the confinement of residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Not applicable. City of Faith does not contract out confinement with other entities. Agreements with the Police Department and medical providers specify PREA compliance by those organizations.

115.213	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The policy directive ensures the facility will develop, document and make its best effort to follow a staffing plan that provides for adequate level of staffing and when applicable video monitoring, to protect residents against sexual abuse. The staffing plan also includes but is not limited to: number and placement of supervisory staff, the prevalence of substantiated and unsubstantiated incidents of sexual abuse, generally accepted detention and correctional practices, any judicial findings of inadequacy, any finding of inadequacy from Federal Investigative agencies, all components of the facility's physical plant, the composition of the resident population, facility programming, any applicable state or local laws, regulations, or standards, any findings of inadequacy from internal or external oversight bodies, and any other relevant factors. The staffing plan is reviewed annually in collaboration with agency PREA Coordinator and Facility Director. The facility administration reported that the facility has not deviated from the staffing plan within the past 12 months.
	There is a female and male officer on each shift and the Director and Chief of Security are always on call, all of whom make logged, unannounced rounds. This documentation was reviewed during the Onsite review and interviews with staff indicated rounds were unannounced and completed on routine and unscheduled basis. It was also noted during resident interviews that the facility always maintains a presence of both male and female staff at all times.

115.215 Limits to cross-gender viewing and searches

Auditor Overall Determination: Meets Standard

Auditor Discussion

Facility Policy covers the procedures for searches and is compliant with the mandates of this standard. There is a policy in place for strip searches for both male and female population. The policy states it can only be done by a medical professional and the BOP Residential Manager has to authorize it prior to search. Any cross gender pat search conducted must be witnessed by two staff members in a private setting with prior approval from Director. Staff are presented with a detailed training presentation on how to conduct pat gender searches. Policy provides that they do not perform cross gender pat searches except for exigent circumstances. None have been done in recent years through early 2022. There is an unusual occurrence report to use if needed. Although program policy allows for the possibility of cross gender pat down searches of males (not females), all staff and residents interviewed confirmed that no cross gender pat down searches are done in practice. On the rare occasion a female staff needs to search a resident, a wand is used.

The policy in place also states that no one will be searched to determine their genital status. The facility does not do cavity searches and those would be done at a medical facility if needed. The program utilizes a local hospital, University of Little Rock Hospital for all medical needs.

There is no cross-gender viewing of residents in toilet or shower areas, and there is no cross-gender access to dormitories without announcements and waiting enough time for residents to cover themselves. Policy in place is to allow at least 5 seconds and it was obvious in the tour and interviews that longer times are routine. During the interviews with residents, it was reported by every resident that staff is respectful of their privacy and wait for residents to dress before entering unit. Residents report that there is more than one announcement made prior to opposite staff entering housing area. Residents also reported that there is no time that a resident is in naked in full view of opposite gender staff member. Currently, the facility does not have any transgender residents; however, the facility has a clear plan on how to afford a transgender resident with a private shower located in the handicap restroom if the need arises. The facility currently has one resident who is identifies as a homosexual and has voiced the request to live in a private setting secondary to a harassment allegation regarding another resident. The facility has granted the resident request and he lives in a room alone and has access to a private shower. The resident accused of the harassment was transferred immediately. Resident stated he feels very safe and staff was very receptive and proactive with his request.

There are training rosters reflecting appropriate training. All staff verbalized the training content regarding PREA and specifically to searches. During staff interviews it was noted that all staff states the facility does not tolerate any form of sexual abuse or harassment from residents and/or staff.

115.216	Residents with disabilities and residents who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility provides offender education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, intellectual and/or physical disabilities, as well as to residents who have limited reading skills. The facility has a Spanish speaking employee who can serve as an interpreter. In addition, the facility has agreements with the University of Little Rock Foreign Language Department as well as the Arkansas School for the Blind and Deaf to service the facility residents if the need arises. One resident, who arrived the night before audit and had limited reading capability was interviewed. He stated he was given assistance with the intake packet and has no concerns relative to PREA or communicating with staff. The intake manager had already communicated the resident special needs to his case manager. Facility policy prohibits the use of resident interpreters. In the past 12 months, City of Faith has not used a resident interpreter to gather information for a PREA allegation. During the interviews with random sample of staff, no staff member could recall the facility ever using a resident for translation purposes as it relates to PREA. Although it is rare for City of Faith to receive disabled residents, it is evident that the facility is very accommodating to all special needs of the population.

115.217	Hiring and promotion decisions
	Auditor Overall Determination: Meets Standard
	Auditor Discussion

The HR Director confirmed this practice during interview. It was also reported that the facility does consider prior incidents of sexual harassment/sexual abuse when determining whether to promote or hire staff.
	The facility is in compliance with the requirement of the standard of conducting background checks on all employees every five years. The safety of the resident is priority and preservation of the evidence was required immediately. The facility uses the Healing Hearts and Spirits for the Victim Advocacy services. 	Auditor Discussion

The facility and the police department have an agreement that the police department will recognize the efforts of City of Faith to comply with PREA standards and agree to comply with all investigative protocols regarding PREA investigations at City of Faith. There have been no incidents reported, but if there were, the facility's initial response is the safety of residents, preserving evidence, securing the scene, and notification of the police department. department. Prior to the onsite review, City of Faith provided lesson plans and numerous training logs for the auditor to review. The facility's training curriculum was reviewed and was found to address all required components of this standard as mandated. During the onsite portion of the audit, an additional random sample of employees training rosters were reviewed. All employees sign a statement of receiving the PREA training as required. During the interviews with a random sample of staff, they acknowledge participating in education training as it relates to PREA. Every employee interviewed voiced knowledge of policy, procedure and facility zero tolerance approach to PREA. It was clear during these interviews that staff are receiving and understand the material that is being provided to them during training. Staff did not have any difficulty articulating on how to respond to reports of sexual abuse and sexual harassment if reported to them. Staff reported they receive training upon initial employment in addition to annual training and routine staff meetings. Interviews reflected that the training is conducted in an informal setting allowing the employees.

115.232	Volunteer and contractor training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility does not currently have any volunteers; however, there is a specific training plan in place in the event they utilize volunteer services. City of Faith does not have any contractors but agreements with the police department and local medical providers do specify PREA compliance. Policy does state that any such volunteers or contractors would be trained and held accountable as required in the standard.

115.233	Resident education
	Auditor Overall Determination: Exceeds Standard
	Auditor Discussion
	The company policy states that information about the facility's policy and procedure regarding sexual abuse/harassment is provided to each resident during the orientation program and is provided in a manner which is understood by the resident. During the intake process, residents receive information explaining the agency's zero-tolerance policy regarding sexual abuse and harassment and how to report incidents or suspicions of sexual abuse/harassment. Within 30 days of intake, the facility provides comprehensive one on one orientation with the case manager. The information includes explaining the right to be free from sexual abuse/harassment and to be free from retaliation for reporting such incidents. Schedules, policies, reception and training requirements for new residents, and all interviews clearly demonstrated compliance. Every resident was clear that the procedures, rules, processes and- most importantly- culture of zero tolerance were imparted to them beyond any question. In addition to required training at intake and within 30 days, the facility also requires one our annual training for PREA. Each resident stated that prior to arrival at City of Faith, they also received a packet of information regarding the policies and procedures and how to report any sexual abuse/harassment. The facility provides resident education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled as well as to offenders who have limited reading skills. Random resident interviews indicated that residents have knowledge of PREA as well as the means to report allegations, During the site review, it was noted signage was present in all housing areas, dining halls, etc.

It should be noted that residents with significant mental health and medical concerns are not sent to City of Faith, Little Rock per Bureau of Prison policy.

115.241	Screening for risk of victimization and abusiveness
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Screening is completed as required; however, as a general rule older, and presumably more vulnerable, residents are housed in the smallest and quietest house to increase their comfort and feeling of security. Since this is a re-entry facility, intake screening also reviews any possibility of co-defendants and enemies being in the same facility. Upon screening, if it is determined that the resident is inappropriate for housing due to a PREA concern, the Federal Bureau of Prisons would be notified and resident reassigned to a more appropriate facility. Each resident is reviewed every 30 days by the administrative board to review and complaints or concerns the resident may be experiencing.

The facility does not currently house any residents who identify as transgender; however, the facility has a clear plan on how to accommodate the needs of transgender residents. The facility also maintains a room that is an individual housing option for any resident that has specific PREA needs or any other concerns that would require single person housing.
