Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	3
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

<p>b. SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
---	--

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	The facility takes pride in ensuring the privacy of the residents in all areas of the buildings.
--	--

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	The facility readily made available all documents for review.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0
Total	0	0	0	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

115.211	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	<p data-bbox="244 208 453 235">Auditor Discussion</p> <p data-bbox="244 271 1493 331">City of Faith takes pride in the adherence to the Prison Rape Elimination Act Standards. Each one of the COF locations have been audited and began implementing compliance at the very beginning of the process.</p> <p data-bbox="244 360 1469 589">The facility has a very detailed policy directive for Sexual Abuse. The policy outlines the facilities approach to preventing, detecting and responding to sexual abuse and sexual harassment. This faith based program takes its mission to heart and encourages resident safety and mutual resident-staff respect into all facets of its operations. The PREA Coordinator is identified and meets criteria. There is one PREA coordinator for this facility and he is located at the Monroe location. However, due to the size and nature of the population, one is very effective. The PREA Coordinator, although has many responsibilities, voiced he has sufficient time and authority to develop, implement and oversee the facility efforts to comply with the PREA standards.</p> <p data-bbox="244 618 1493 741">Policy in place; interviews with both residents and staff affirmed that this culture is taken very seriously by the entire program and all staff. The Program Deputy Director also serves as the PREA Coordinator and voiced that she has adequate time to serve in both capacities. The facility Director is adamant about sexual safety at the facility and ensures the residents feel safe and have adequate resources readily in all areas of the unit.</p>

115.212	Contracting with other entities for the confinement of residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Not applicable. City of Faith does not contract out confinement with other entities. Agreements with the Police Department and medical providers specify PREA compliance by those organizations.

115.213	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	<p data-bbox="242 206 454 235">Auditor Discussion</p> <p data-bbox="242 271 1468 398">There is a policy in place and there are facility layouts reviewed. The staffing plan is detailed and considers each factor mandated by PREA. The plan is reviewed routinely and also thoroughly elaborates on how each factor is considered in the staffing plan. The staffing plan insures there is a female and male staff present on each shift. During interviews, it was apparent that this is common practice at the facility.</p> <p data-bbox="242 430 1484 656">The staffing plan includes but is not limited to: number and placement of supervisory staff, the prevalence of substantiated and unsubstantiated incidents of sexual abuse, generally accepted detention and correctional practices, any judicial findings of inadequacy, any finding of inadequacy from Federal Investigative agencies, all components of the facility's physical plant, the composition of the resident population, facility programming, any applicable state or local laws, regulations, or standards, any findings of inadequacy from internal or external oversight bodies, and any other relevant factors. The staffing plan is reviewed annually in collaboration with agency PREA Coordinator and Facility Director. The facility administration reported that the facility has not deviated from the staffing plan within the past 12 months.</p>

115.215	<p data-bbox="229 69 1509 1178">Limits to cross-gender viewing and searches</p> <p data-bbox="229 129 1509 192">Auditor Overall Determination: Meets Standard</p> <p data-bbox="229 197 1509 259">Auditor Discussion</p> <p data-bbox="229 264 1509 479">Facility Policy covers the procedures for searches and is compliant with the mandates of this standard. There is a policy in place for strip searches for both male and female population. The policy states it can only be done by a medical professional and the BOP Residential Manager has to authorize it prior to search. Any cross gender pat search conducted must be witnessed by two staff members in a private setting with prior approval from Director. Staff are presented with a detailed training presentation on how to conduct pat gender searches. Policy provides that they do not perform cross gender pat searches except for exigent circumstances.</p> <p data-bbox="229 483 1509 591">None have been done in recent years through early 2022. Although program policy allows for the possibility of cross gender pat down searches of males (not females), all staff and residents interviewed confirmed that no cross gender pat down searches are done in practice. On the rare occasion female staff needs to search a resident, a wand is used.</p> <p data-bbox="229 595 1509 748">The policy in place also states that no one will be searched to determine their genital status. The facility does not do cavity searches and those would be done at a medical facility if needed. The program utilizes a local hospital, Baton Rouge General for all medical needs. There is no cross-gender viewing of residents in toilet or shower areas, and there is no cross-gender access to dormitories without announcements and waiting enough time for residents to cover themselves.</p> <p data-bbox="229 752 1509 860">Policy in place is to allow at least 5 seconds and it was obvious in the tour and interviews that longer times are routine. During the interviews with residents, it was reported by every resident that staff is respectful of their privacy and wait for residents to dress before entering unit.</p> <p data-bbox="229 864 1509 1039">Residents report that there is more than one announcement made prior to opposite staff entering housing area. Residents also reported that there is no time that a resident is in naked in full view of opposite gender staff member. Currently, the facility does not have any transgender residents; however, the facility has a clear plan on how to afford a transgender resident with a private shower located in the handicap restroom if the need arises. There are a total of 26 cameras for accurate monitoring of all facility areas.</p> <p data-bbox="229 1043 1509 1178">There are training rosters reflecting appropriate training. All staff verbalized the training content regarding PREA and specifically to searches. During staff interviews it was noted that all staff states the facility does not tolerate any form of sexual abuse or harassment from residents and/or staff.</p>

	Auditor Overall Determination: Meets Standard
	<p data-bbox="244 208 451 235">Auditor Discussion</p> <p data-bbox="244 271 1485 427">The facility provides offender education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, intellectual and/or physical disabilities, as well as to residents who have limited reading skills. The facility has a Spanish speaking employee who can serve as an interpreter. In addition, the facility has agreements with the Louisiana State University Foreign Language Department and Louisiana Center for visually impaired to service the facility residents if the need arises.</p> <p data-bbox="244 463 1485 589">Facility policy prohibits the use of resident interpreters. In the past 12 months, City of Faith has not used a resident interpreter to gather information for a PREA allegation. During the interviews with random sample of staff, no staff member could recall the facility ever using a resident for translation purposes as it relates to PREA. Although it is rare for City of Faith to receive disabled residents, it is evident that the facility is very accommodating to all special needs of the population.</p> <p data-bbox="244 624 1485 750">The facility did not currently have any female residents at the time of the audit. The population generally does not have physical disability due to the nature of the environment. However, auditor was able to interview two residents perceived to be homosexual and one resident who has cognitive impairment. The facility has a total of 18 residents but only 11 onsite. All residents onsite were interviewed and voiced feeling safe at the facility.</p>

The facility uses the NCIC database to run the checks on all potential and current employees. During the onsite audit review, employee files were reviewed, and all contained background check in accordance with the standard.</p> <p data-bbox="231 504 1508 721">Policy requires that City of Faith shall not hire or promote anyone into a position who may have contact with residents that have engaged in sexual abuse of offenders in an institutional setting, has been convicted of engaging in sexual activity in the community facilitated by force, the threat of force, or coercion, or has been civilly or administratively adjudicated to have engaged in such activity. The HR Director confirmed this practice during interview. It was also reported that the facility does consider prior incidents of sexual harassment/sexual abuse when determining whether to promote or hire staff.</p>

The BRPD responds immediately and assumes responsibility for the investigation. During interviews with staff, it was obvious staff is aware of the procedures on how to contact the appropriate agency and medical staff to respond to facility in the event of an allegation. The safety of the resident is priority and preservation of the evidence was required immediately. The facility uses the Star Crisis Center for the Victim Advocacy services. The facility has not had incident within the past 12 months that would require a forensic examination. Any medical needs, including a forensic exam, are addressed by the Baton Rouge General Hospital.</p>

115.222	Policies to ensure referrals of allegations for investigations
	Auditor Overall Determination: Meets Standard
	<p data-bbox="231 190 1508 257">Auditor Discussion</p> <p data-bbox="231 257 1508 414">Policy requires all allegations of sexual abuse, sexual harassment, or nonconsensual sexual acts shall be referred to Baton Rouge Police Department immediately. The facility and the police department have an agreement that the police department will recognize the efforts of City of Faith to comply with PREA standards and agree to comply with all investigative protocols regarding PREA investigations at City of Faith.</p> <p data-bbox="231 414 1508 548">There have been no incidents reported, but if there were, the facility's initial response is the safety of residents, preserving evidence, securing the scene, and notification of the police department. All staff interviewed were aware that they could call the Facility Director at any time of the day or night to report an incident.</p> <p data-bbox="231 548 1508 629">City of Faith PREA Coordinator is a trained PREA investigator and would travel from Monroe to conduct an administrative investigation if an allegation was made. Verification of training for the Coordinator was provided.</p>

115.231	Employee training
	Auditor Overall Determination: Exceeds Standard
	<p data-bbox="240 208 453 237">Auditor Discussion</p> <p data-bbox="240 271 1441 365">According to the policy all newly hired employees shall receive the minimum training required by PREA standards. Staff receive training information relative to both female and male population. Prior to the onsite review, City of Faith provided lesson plans and numerous training logs for the auditor to review.</p> <p data-bbox="240 394 1477 689">The facility's training curriculum was reviewed and was found to address all required components of this standard as mandated. During the onsite portion of the audit, an additional random sample of employees training rosters were reviewed. All employees sign a statement of receiving the PREA training as required. During the interviews with a random sample of staff, they acknowledge participating in education training as it relates to PREA. Every employee interviewed voiced knowledge of policy, procedure and facility zero tolerance approach to PREA. It was clear during these interviews that staff are receiving and understand the material that is being provided to them during training. Staff did not have any difficulty articulating on how to respond to reports of sexual abuse and sexual harassment if reported to them. Staff reported they receive training upon initial employment in addition to annual training and routine staff meetings. Interviews reflected that the training is conducted in an informal setting allowing the employee to freely ask questions and engage in discussion.</p> <p data-bbox="240 719 1469 846">It is evident that City of Faith excels in providing training to their employees. All staff has received PREA training and the facility has a great training curriculum that is in compliance with the standard. All staff could easily articulate the training they received and the facility goals and directives for zero tolerance of sexual assault.</p>

Within 30 days of intake, the facility provides comprehensive one on one orientation with the case manager. The information includes explaining the right to be free from sexual abuse/harassment and to be free from retaliation for reporting such incidents. Schedules, policies, reception and training requirements for new residents, and all interviews clearly demonstrated compliance.</p> <p data-bbox="242 530 1485 754">Every resident was clear that the procedures, rules, processes and- most importantly- culture of zero tolerance were imparted to them beyond any question. Screening is completed as required and no incidents have been reported. The intake officer completes the initial screening immediately and then the assessment is followed up within 72 hours. However, all residents stated the screening tool was completed within 48 hours. If noted the resident has concerns for his/her safety or may be vulnerable to living in the housing areas, the Program Director is immediately notified and BOP intervenes to make arrangements suitable to the resident's needs. All factors of vulnerability are considered prior to placing the resident in the housing area. It was noted by many residents during interviews that this process was routine practice. It is not unusual for a resident to arrive after hours when intake staff is not available. The facility staff will ensure the resident does not have any immediate concerns and is not vulnerable to living with others. In the event a resident voices concerns or staff has reason to believe there may be a concern, the facility Director is contacted immediately to determine disposition and housing.
